### Projects

---

- E-commerce Website, *REACT***  
Designed and developed an e-commerce website from scratch using React demonstrating proficiency in front-end web development and e-commerce solutions
- Attendance App, *MERN***  
User features include login, profile with name, picture, ID, and course; check-in, marking attendance, and viewing past records. Admin functionalities involve admin panel for login, adding students with details, and accessing an attendance tab to manage all records.
- Internship Website, *MERN***  
Crafted an intuitive internship website using MERN stack, connecting students and companies seamlessly for internship opportunities.
- Blog App**  
Built a feature-rich blogging app with user authentication using HTML, CSS, JavaScript, and Firebase, showcasing expertise in web development, real-time data integration, and user authentication.
